Winner in Coding-Datakon'23

Gomathi Nayagam

Data Science Enthusiast | CSE Student at SRM KTR | Proficient in
Python, C, C++, Java, Java Script,HTML,CSS
Chennai, Tamil Nadu, India

Summary

Hello, I'm Gomathi Nayagam, a passionate technology enthusiast
with a deep love for coding. Hailing from Chennai, I have found my
true calling in the world of technology, and it's a journey I'm eager to
continue.

My heart belongs to coding, and I consider myself an intermediate-
level coder with a strong focus on Python. The world of competitive
coding has been my playground, where I sharpen my skills and
embrace the art of problem-solving. But, my hunger for knowledge
knows no bounds, and I'm on a constant quest to learn and grow in
the realm of coding.

Beyond the screen and keyboard, I'm an avid explorer of the digital
landscape, always eager to unravel the latest advancements and
trends in technology. It's not just a passion; it's a way of life.

Join me on this exciting journey through the intricate lines of code
and the ever-evolving world of technology. Let's code the future
together

Experience

DSBS Student Association
Technical Team Member
September 2024 - Present (6 months)
Chennai, Tamil Nadu, India

Technical Team Member | DSBS Student Association

As a Technical Team Member at DSBS Student Association, I am actively
contributing to the technical development and innovation within our community.

Recently, I developed the official website for INNOFUSION '25, our flagship
hackathon, ensuring a seamless user experience for participants. From

designing an intuitive interface to optimizing functionality, I worked diligently to create a platform that streamlines event registration and information access.

Being part of this association has given me the opportunity to learn quickly, tackle real-world challenges, and enhance my technical skills. I am constantly pushing myself to improve and contribute more to the team through hard work, dedication, and innovation.

Excited for more opportunities to grow and make an impact!
